Create AI

Archetype training to support the DoD workforce

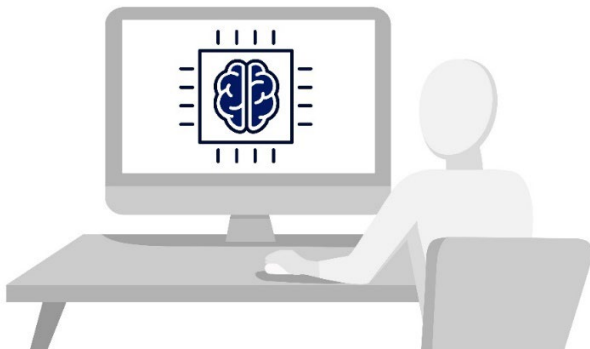

The Chief Digital and Artificial Intelligence Office (CDAO) Human Capital Transformation (HCT) Team develops, directs and coordinates data, data analytic and AI training opportunities across the DoD and is pleased to offer this Create AI course pilot to DoD military and civilian personnel.

For more information about CDAO sponsored courses contact the Education and Training Team: osd.ncr.dod-cio.mbx.cdado-hct@mail.mil

Why Take Create AI

The Create AI Archetype pilot was designed for technical experts who will develop and deliver AI-enabled tools within the DoD. You will build AI tools using Python, Spark, and AWS as you develop advanced understanding of AI methods and frameworks.

If you are interested in a technical role or looking to transition to one, then the Create AI curriculum aligns with work roles across components. Work roles include AI researcher, data scientist, AI/Machine Learning engineer, test & evaluation engineer, and deployment engineer.

Create AI Learning Outcomes

The CDAO Create AI program equips you with key knowledge and skills to:

- Develop and produce a wide-array of ethical AI applications.
- Determine which AI capability is most applicable to the use case.
- Industrialize solutions to support enterprise-scale application using DoD platforms and tools.

Details and How To Sign Up

The estimated launch of the next Create AI cohort is in **September 2022**. If you have any questions, please reach out to osd.ncr.dod-cio.mbx.cdado-hct@mail.mil. Please include Create AI in the subject line.

Join the Create AI Cohort to broaden your skill sets and become part of the DoD AI-ready workforce
